ACES

Program Summaries

ACES China Summer Research and Cultural Immersion

This 6 week summer program at Zhejiang University in China is especially attractive for Food Science students. The program consists of Chinese language, research/independent study, and weekly field trips with industry visits. University of Illinois FSHN faculty Hong Chen will be attending the program.

ACES in France at LaSalle: Spring Semester in Nutritional Sciences

A semester program 1 hour north of Paris, LaSalle is the perfect setting for any FSHN student. Classes are offered in English and taken alongside international students from around the world. Examples of courses include Mediterranean Diet and Health, Baking French Bread, Physical Activity and Nutrition, French Wine & Cheese and more.

ACES in France at LaSalle: Summer Experiential Learning in Culinary Sciences

This summer-long program in Beauvais, France at LaSalle involves 3 weeks of culinary classes in the gastronomic approach and cooking for health. Following their coursework, students participate in a 2-month internship in a French restaurant.

ACES in France at EI Purpan: Summer Courses and Internship

This program in the south of France involves 1 month of courses studying French language as well as viticulture and enology. The second month of the program, students participate in an internship on a French vineyard, dairy or other agricultural site while living with a host family. There is also a semester program available for students with French language experience.

IAGE Food and Culture in Rome

The Food and Culture in Rome program focuses on the critical study of culture, systems and politics of food in Italy. The program is offered during the summer or semester-long. Each term will have unique elements. Fall semester focuses on food marketing and business, while the spring semester program offers courses in food and media. There is also a shorter, summer program.

ACES in Denmark at UC Copenhagen

This program is best suited for spring semester. Taught in English, UC offers a wide variety of courses in food science, nutrition, global health and more. The charming, yet bustling city of Copenhagen offers a fabulous window to Danish culture.

ACES in the Netherlands at WUR in Wageningen

Wageningen University is one of the leading and most internationalized universities in Europe. The language of instruction in many courses is English. It is an ideal site for students interested in the fields of food, technology and natural sciences.

ACES in Brazil at University of Viçosa

This program, offered in summer or full semester, located north of Rio de Janeiro. There are a variety of academic programs in which to enroll, including biological and health science, as well as internship and research opportunities. The semester program requires at least 1-2 semesters of Portuguese language while the summer program does not require Portuguese. In both programs students will study Portuguese.
