FACULTY LED:
• ACES in Sierra Leone (Winter Break)
• ACES in Tanzania: Wildlife Management (Winter Break)
• ACES in Costa Rica: Soil Diversity and Land Use (Winter Break)
• The International Business Immersion Program – Brazil (Winter Break)

SUMMER:
• ACES/ENG in Brazil at University of Vicosa
• ACES in Taiwan at National Taiwan University: Biodiversity, Agriculture, and Culture
• ACES in Botswana: Wildlife Conservation and Communities
• ACES in France at UniLaSalle: Food Heritage Tour
• Global Experiences Internship: Barcelona, Dublin, London, Sydney
• IAGE Provider: The School for Field Studies
  • Australia and New Zealand: Rain Forest Studies
  • Tanzania: Wildlife Management
  • Turks and Caicos: Marine Resource Studies

SEMESTER:
• ACES in Austria
• ACES in Sierra Leone: Agribusiness and Development
• ACES in the Netherlands at Wageningen University
• ACES in Sweden at SLU in Uppsala
• ACES in New Zealand at Massey University
• IAGE Illinois in Costa Rica: Environment and Society
• IAGE Provider: International Sustainable Development Studies Institute in Thailand

Program Summaries

FACULTY LED:
ACES in Sierra Leone
Broader your understanding of the roles of governance, management, and policy through participation in a two week study abroad course in Sierra Leone. Students will observe agricultural and forestry businesses and projects, speak with policy makers, and development leaders, and learn from local colleagues at Njala University.

ACES in Costa Rica: Soil Diversity & Land Use
The course is designed to provide students with an intensive introduction to soil diversity and associated land use systems including their human dimensions across the humid, montane, and drier regions of Costa Rica. Students will work in teams to interpret soil-landscapes and investigate linkages among land use patterns and their ecosystem impacts.

SUMMER:
ACES in Tanzania: Summer Wildlife Management
This faculty-led program provides students with a hands-on experience in the conservation of natural and cultural resources across wilderness, rural, and urban regions of Tanzania. Students will attend courses at the world renowned College of African Wildlife Management-Mweka (Mweka) and participate in selected projects that reflect the multifaceted demands facing conservationists in Africa. Students finish the program with a learning wildlife Safari.

ACES in Taiwan at NTU: Biodiversity, Agriculture and Culture of Taiwan
During the month-long course, students visit National Parks, Experimental Forests & Farms and Research Institutes. Students explore from the ocean to low, mid, and high elevation, to see why and how an island as small could be endowed with such high biodiversity. Students also get hands-on experiences with the bamboo and tea culture, as well as the Chinese calligraphy and language.

ACES in Botswana: Wildlife Conservation and Communities
Wildtrax presents students with a hands-on research experience through a 2-month summer module, or 2-week winter break experience on Communities & Wildlife Conservation Research Field Training Studies in Botswana. Students begin with a lecture series at the research camp to understand the dynamic coexistence of humans and wildlife. After the course work, students join the research team to learn field techniques and collect data.

SEMESTER:
ACES in Brazil at University of Viçosa
This program, offered in summer or full semester. There are a variety of academic programs in which to enroll as well as internship and research opportunities. The semester program requires at least 1-2 semesters of Portuguese language while the summer program does not require Portuguese. In both programs students study Portuguese.

ACES in the Netherlands at WUR in Wageningen
Wageningen University and Research Centre is one of the leading and most internationalized universities in Europe, located about an hour south of Utrecht. The language of instruction in many courses is English. It is an ideal site for students interested in crop science and environmental science.

Illinois in Costa Rica: Environment and Society
Costa Rica is a global leader in progressive environmental policy with a small carbon footprint, significant land area dedicated to reserves. Develop your environmental leadership during a semester abroad, learning about this critical connection between environment and society and exploring Costa Rica’s biodiversity from multiple angles.

Application Deadlines: Varies, Spring semester and WB Sept 15, Summer and Fall Feb. 15
Apply: www.studyabroad.illinois.edu - Click ‘programs’ and enter program name in search field
Cost: Varies depending on length and location
